Twitter: @Ocean_View_Elem

Upcoming Dates in April:

April 8

Teachers will be sending an email and lessons for students.

From Mrs. Brace & Ms. Walsh:

Well March and April certainly turned into something unexpected! The staff at OVES hope that this newsletter finds everyone safe, healthy, and happy in their homes. Since we are not at school, staff are working together to have our students continue some learning while at home. April 8th students will be receiving contact from their teachers regarding some lessons and assignments that can be done. The idea is that we are providing learning opportunities and we want to keep things manageable.

Using e-learning as the sole way to deliver communication, lessons, and activities is new for many. We are sure that it is new for you to complete lessons and activities too! The biggest thing is that we want to make sure that our families keep in touch. Your classroom teachers will be letting you know how to reach them and what times are best. Learning center teachers and resource teachers have been working with the classroom teachers and will also reach out as needed.

For those families that don't have access to the internet, Saltwire publishing will be delivering pre-made lessons to those people that get flyers. If you don't get flyers and want the lessons, you can call us 902 426-3031 ext 5.

If you do have access to the internet and also want the lessons but don't get the flyers, you can find them here at: <https://www.saltwire.com/nshomelearning/>

The other website to look at is: <https://curriculum.novascotia.ca/learning-home>

Our phys ed teacher, Ms. Giles has put together a video for our school community to let you all know that we miss you. Once it is ready, we will put a link on our website. Speaking of which – please check the OVES website and HRCE website regularly for updates.

Please be safe everyone! We miss each and every one of our students!
